

North Dakota Southeast Public Fishing Waters

Data as of: February 01, 2013

The following includes all public fishing waters, listed alphabetically by county name for Southeast ND. Each listing includes travel directions, most common species present, and fishing piers (listed if present). Larger systems have inset maps to give better detail for boating access locations of that system. Each location listing includes travel directions, facilities present, and managing authority. All sites have a boat ramp, courtesy dock and restrooms unless otherwise noted. Most of North Dakota public fishing waters have a boat ramp (concrete and/or metal). If a boat ramp is lacking at a specific water body, it is listed as 'no ramp'.
